

Assignment

PHP Manual: A Simple Tutorial

“PHP is a popular general-purpose scripting language that is especially suited to web development.

Fast, flexible and pragmatic, PHP powers everything from your blog to the world’s most popular websites.” [1]

This assignment uses the online PHP Manual. For this Assignment, complete the PHP: A Simple Tutorial at php.net. You will find this tutorial at:

<http://php.net/manual/en/tutorial.php>

Work through the first four sections of this tutorial.

Deliverable

When you complete “Dealing with Forms,” post the working code to your online portfolio. In addition to a link to the working code, better portfolio page’s will include sufficient text to explain the value and the relevance of the PHP Manual to our Internet Application Development Class.
