

## Assignment

# W3Schools JavaScript Tutorial

---

# JavaScript

The language for  
programming web pages

LEARN JAVASCRIPT

JAVASCRIPT REFERENCE

JavaScript Example:

```
<script>
function myFunction() {
  var x =
document.getElementById("demo");
  x.style.fontSize = "25px";
  x.style.color = "red";
}
</script>

<button onclick="myFunction()">Click
Me!</button>
```

Try it Yourself

A high-level, dynamic, untyped, and interpreted scripting language, JavaScript is recognized as the ECMAScript standard. It is supported by all modern web browsers. And it provides you with an operating system and browser independent way of adding behavior to your web pages.

For this assignment you will work through the JavaScript tutorial at W3 Schools. Work through the modules upto and including JavaScript Functions.
